Ghaziabad, Uttar Pradesh | Open to Relocation

Professional Summary

Computer science fresher (B.Tech AI/ML, CGPA 8.2, graduating July 2026) with 250+ DSA problems solved and hands-on experience shipping React.js and Next.js applications. Seeking an entry-level software developer or frontend engineer role.

Education

Dr. APJ Abdul Kalam Technical University

Bachelor of Technology in Computer Science (AI & ML) - CGPA: 8.2/10

November 2022 - July 2026

Ghaziabad, Uttar Pradesh

Lucknow Public College

Intermediate:(PCM) Percentage - 92.6%

April 2021 - April 2022

Lucknow, Uttar Pradesh

Experience

Software Developer Intern

BLUESTOCK

Apr 2025 - May 2025

- Designed and delivered a portfolio management module in React and Material-UI, enabling 200+ investors to track holdings with a 35% improvement in user retention.
- Engineered reusable, responsive UI components following REST API contracts, reducing integration turnaround by 20%.
- Collaborated with backend and product teams in an Agile sprint cycle to ship features on schedule.

Subject Matter Expert

Chegg India

Apr 2023 - Feb 2025

- Resolved 100+ Computer Science and programming queries with top accuracy ratings, producing clear, step-by-step technical explanations under strict deadlines.

Projects

SENS-AI | *Next.js, Tailwind CSS, NeonDB, Prisma, Clerk, Inngest, Gemini API, Shadcn UI*

Mar 2026 - Present

- Built a full-stack AI career coaching SaaS platform; implemented server-side rendering with Next.js 15 and React Server Components for sub-second page loads.
- Configured Prisma ORM with NeonDB (PostgreSQL) for a type-safe data layer and integrated Inngest for reliable async background job processing.

Hotel-Booking Website Frontend | *React.js, JavaScript, Vite, Tailwind Css Clerk*

May 2025 - Jun 2025

- Developed a fully responsive single-page application with Vite, cutting page load time by 35% through lazy loading and code-splitting.
- Integrated Clerk authentication, streamlining onboarding and boosting user sign-ups by 20%.

E-Commerce-Web-App-Frontend | *Next.js, Material-UI, Clerk*

Apr 2025

- Architected a performant e-commerce frontend with Next.js static generation, improving Core Web Vitals and reducing LCP by 30%
- Implemented secure Clerk OAuth login, increasing successful authentication rate by 30%

Problem Solving & Technical Skills

LeetCode: Solved 250+ DSA problems, improving problem-solving speed and coding proficiency.

Languages: C/C++, JavaScript(ES6+), Python (NumPy, Pandas, Matplotlib, scikit-learn)

Web Development: HTML5, CSS, ReactJS, Material-UI, Bootstrap, Tailwind, SinglePage Application, Node.js, Express.js, Axios

Tools: VS Code, GitHub, Vercel, Figma, Jupyter Notebook, MySQL, MS Excel

Coursework: Object Oriented Programming, Data Structures and Algorithm, Machine Learning, Operating System, DBMS, Data Analysis, Data Science

Soft Skills: Effective Communication, Team Collaboration and Leadership, Problem-Solving/Critical Thinking, Adaptability and Resilience, Time Management and Organization

Leadership, Roles & Certifications

Head Coordinator, Machine Learning Center of Excellence — organised technical workshops and mentored 30+ junior students in ML and web development.

Senior Coordinator, Team V-VERVE — directed event planning and cross-team coordination.

NCC Cadet: Selected for the National-level Thal Sena Camp (TSC), demonstrating leadership and discipline.

Certifications:

- Web Development Bootcamp — Udmy
- Introduction to Artificial Intelligence — Infosys Springboard
- Machine Learning with Scikit-Learn
